STATEMENT OF THE BOARD OF MANAGEMENT

RESPONSIBILITY OF BOARD OF MANAGEMENT OF THE COMPANY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Management of FPT Corporation ("the Company") is responsible for preparing the consolidated financial statements of the Company and its subsidiaries (together, "the Group") which give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of the consolidated results of its operations and its consolidated cash flows for the year then ended. In preparing these consolidated financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent; and
- prepare the consolidated financial statements on a going-concern basis unless it is inappropriate to presume that the Group will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Group and enable the consolidated financial statements to be prepared which comply with the basis of accounting set out in Note 2 to the consolidated financial statements. The Board of Management is also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud or error.

The Legal Representatives have authorised the Deputy General Director of the Company to approve and sign the consolidated financial statements of the Group for the year ended 31 December 2025 pursuant to the Authorisation Letter No. 116/QĐ-FPT dated 14 August 2024.

APPROVAL OF THE CONSOLIDATED FINANCIAL STATEMENTS

I hereby, approve the accompanying consolidated financial statements as set out on pages 5 to 70 which give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of consolidated financial statements.

On behalf of the Board of Management

Nguyen The Phuong
Deputy General Director

INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF FPT CORPORATION

We have audited the accompanying consolidated financial statements of FPT Corporation ("the Company") and its subsidiaries (together, "the Group") which were prepared on 31 December 2025 and approved by the Deputy General Director of the Company (pursuant to the authorisation of the Legal Representatives of the Company) on 18 March 2026. The consolidated financial statements comprise the consolidated balance sheet as at 31 December 2025, the consolidated income statement and the consolidated cash flow statement for year then ended, and explanatory notes to the consolidated financial statements including significant accounting policies, as set out on pages 5 to 70.

The Board of Management's Responsibility

The Board of Management of the Company is responsible for the preparation and the true and fair presentation of these consolidated financial statements of the Group in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of consolidated financial statements, and for such internal control which the Board of Management determines necessary to enable the preparation and presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical standards and requirements and plan and perform the audit in order to obtain reasonable assurance as to whether the consolidated financial statements of the Group are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including an assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and true and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

PwC (Vietnam) Limited

Auditor's Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on the preparation and presentation of consolidated financial statements.

Emphasis of Matter

We draw attention to Note 1 of the consolidated financial statements, which indicates the basis of consolidation of the financial statements of FPT Telecom Joint Stock Company ("FTEL") up to 31 December 2025. Our audit opinion is not modified in respect of this matter.

Other Matter

The independent auditor's report is prepared in Vietnamese and English. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

1 GENERAL INFORMATION

FPT Corporation (the "Company") was initially incorporated as a state-owned company in Vietnam and subsequently equitized to become a joint stock company in accordance with the Decision No. 178/QD-TTg dated 28 February 2002. The Company operates under the Enterprise Registration Certificate No. 0101248141 which was initially issued by the Department of Planning and Investment of Hanoi City on 13 May 2002. The latest amendment (60th) to the Enterprise Registration Certificate was issued on 21 August 2025.

Since 13 December 2006, the Company's shares have been listed on Ho Chi Minh City Stock Exchange with ticker symbol of "FPT".

The principal activities of the Company and its subsidiaries (together, "the Group") are to provide IT and telecommunication products and services. The main products and services include: (i) Software development services including software export, provision of software package and solutions, software services and ERP services; (ii) Information technology services including digital transformation consulting and IT consulting, system management, BPO service, data center service, cloud computing service, and service based on new technologies such as artificial intelligence, automation; (iii) System integration; (iv) Telecommunication services including internet services, pay television and value added services; (v) Digital content services including online advertising; and (vi) Education services at primary, high school, college, university and postgraduate levels.

The normal business cycle of the Group is within 12 months, except certain IT system integration projects which are carried out in a period of more than 12 months. The Group's business operations during the year were not affected by seasonality.

As at 31 December 2025, the Group had 54,110 employees (as at 31 December 2024: 54,646 employees).

As at 31 December 2025, the Company had 8 direct subsidiaries and 2 main associates. Details of these entities are presented on the following page.

In addition, information about other subsidiaries, joint ventures and associates which the Company indirectly owned is presented in Appendix 1 of the consolidated financial statements.

1 GENERAL INFORMATION (CONTINUED)

(i) Direct subsidiaries:

1 GENERAL INFORMATION (CONTINUED)

(i) Direct subsidiaries (continued):

(*) ***Basis of the consolidation of the financial statements of FPT Telecom Joint Stock Company ("FTEL") up to 31 December 2025***

Before 11 November 2025, although the Group held only 45.66% of the share capital of FPT Telecom Joint Stock Company ("FTEL"), the Group had control over FTEL and consolidated FTEL's financial statements as a subsidiary into the Group's consolidated financial statements because the Group had the right to cast the majority of votes at meetings of the Board of Directors or equivalent management level of FTEL, as well as the power to govern FTEL's financial and operating policies.

From 11 November 2025, the representative authority over the 50.16% State-owned shares in FTEL was transferred from the State Capital Investment Corporation to the Ministry of Public Security. In accordance with the Official Letter No. 1906 dated 18 March 2026 issued by the Department of Planning and Finance under the Ministry of Public Security, FPT Group has control over FTEL up to 31 December 2025 and continues to consolidate FTEL's financial statements into the consolidated financial statements of the Group up to 31 December 2025. In 2026, after the completion of procedures for the official transfer of ownership representation rights, the new owner will fully exercise the rights and responsibilities of a parent company at FTEL, including the responsibility to consolidate the financial statements.

Based on the above Official Letter, the Group will change the consolidation method for FTEL from the full consolidation method applied for subsidiaries to the equity method applied for joint ventures, associates as described in Note 2.5 of the consolidated financial statements from the financial year 2026.

As at 31 December 2025 and for the financial year then ended, the financial information of FTEL included in the Group's consolidated financial statements is presented in Note 34(a) - Segment Information, comprising the full results of the Telecommunications and Digital Content segment.

1 GENERAL INFORMATION (CONTINUED)

(ii) Direct associates:

Associates	Principal activities	Place of incorporation and operation	As at 31/12/2025 and 31/12/2024	
			% of ownership	% of voting rights
Synnex FPT Joint Stock Company	Producing technological products and distributing IT devices and mobile phone; and manufacturing computers	No. 17, Duy Tan Street, Cau Giay Ward, Hanoi	48%	48%
FPT Digital Retail Joint Stock Company	Retails of computers, peripheral devices, software and telecommunication equipment; telecom service agent	No. 261 - 263 Khanh Hoi, Vinh Hoi Ward, Ho Chi Minh City	46.54%	46.54%

Disclosure of information comparability in the consolidated financial statements:

The comparative figures presented on the consolidated financial statements for the year ended 31 December 2025 are the ones of the audited consolidated financial statements for the year ended 31 December 2024.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements under the historical cost convention, except for investments in associates, joint ventures and business combinations set out in Note 2.5.

The accompanying consolidated financial statements are not intended to present the financial position and financial performance and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

New Accounting system issued not yet effective

On 27 October 2025, the Ministry of Finance issued Circular 99/2025/TT-BTC ("Circular 99") providing guidance on the corporate accounting system, replacing Circular 200/2014/TT-BTC, effective from 1 January 2026 and for fiscal years beginning on or after 1 January 2026. Therefore, the Group will apply Circular 99 for the fiscal year starting from 1 January 2026 to 31 December 2026.

The consolidated financial statements in the Vietnamese language are the official consolidated financial statements of the Group. The consolidated financial statements in the English language have been translated from the Vietnamese version.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Fiscal year

The Group's fiscal year is from 1 January to 31 December.

2.3 Currency used in preparation and presentation of the consolidated financial statements

The consolidated financial statements are measured and presented in Vietnamese Dong ("VND" or "Dong").

On consolidation, if the currencies presented on the financial statements of subsidiaries are different from that of the Group, the parent company translates those financial statements into the currency used in the Group's consolidated financial statements under the following principles:

- Assets, liabilities and goodwill incurred on acquisition of overseas subsidiaries are translated at actual exchange rate at the year end;
- Undistributed earnings/(accumulated post-tax losses) incurred after acquisition date are translated based on the translation of income and expenses in the income statement;
- Items of the income statement and the cash flow statement are translated at the average exchange rate of the year if it approximates the actual rate at the time of the transaction (with the difference not exceeding 2%); and
- Accumulated exchange differences arising from translation are presented in equity of the consolidated balance sheet. Exchange differences attributable to the Company are presented in "Foreign exchange differences". Those attributable to non-controlling interests are allocated to "Non-controlling interests".

2.4 Exchange rates

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies at the consolidated balance sheet date are mainly translated at the transfer rate at the consolidated balance sheet date of the commercial banks where the Group regularly has transactions.

Borrowings denominated in foreign currencies which the Group hedges the exchange rate risk by using currency swap and forward transactions are translated at exchange rates nominated in contracts between the Group and the commercial banks.

Foreign exchange differences arising from these translations are recognised in the consolidated income statement.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.5 Basis of consolidation

Subsidiary

The consolidated financial statements consist of the financial statements of the parent company and companies controlled by the Group for the year ended 31 December 2025. Control is achieved where the Group has the power to govern the financial and operating policies of an investee company so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Assets, liabilities and contingent liabilities of the subsidiary are measured at the fair values at the acquisition date of the subsidiary. The excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the acquired subsidiary is recorded as goodwill. If the cost of acquisition is less than the Group's share of the fair value of the net assets of the acquired subsidiary, the difference is recognised directly in the consolidated income statement of the fiscal year when the subsidiary is acquired.

Inter-company transactions, balances and unrealised gains and losses on transactions between group companies are eliminated on consolidation.

Accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling transactions and interests

The Group applies a policy for transactions with non-controlling interests as transactions with external parties to the Group.

Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

The non-controlling interests are initially measured at the non-controlling shareholders' proportion of the net fair value of the assets, liabilities, and contingent liabilities recognised.

The divestment of the Group's interest in a subsidiary that does not result in a loss of control is accounted for as a transaction with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received from divestment of the Group's interest in the subsidiary is recorded directly in the undistributed earnings under equity. In a divestment of the Group's interest in a subsidiary that results in a loss of control, the difference between the Group's share in the net assets of the subsidiary and the net proceeds from divestment is recognised in the consolidated income statement. The retained interest in the entity will be accounted for as either an investment in another entity or investment to be equity accounted for since the divestment date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.5 Basis of consolidation (continued)

Joint ventures and associates

Joint ventures are contractual agreements whereby two or more parties undertake an economic activity, which is subject to joint control. Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in joint ventures and associates are accounted for using the equity method of accounting and are initially recognised at cost. Interests in joint ventures and associates are carried in the consolidated balance sheet at cost as adjusted by post-acquisition changes in the Company's share of the net assets of the associate. The Group's investment in joint ventures, associates include goodwill identified on acquisition, net of any accumulated impairment loss.

Profit from the joint ventures, associates on the consolidated income statement are proportional to the Group's ownership interest in the joint ventures and associates in respect of profit of the joint ventures and associates. When the Group's share of losses in an associate equal or exceeds its interest in the joint venture or associate, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the joint ventures and associates.

In cases where the equity of a joint venture or associate changes (but such changes are not reflected through the statement of profit or loss for the year, such as equity transactions or foreign exchange differences not recognized as profit or loss), the Group determines and recognizes its share of the change in the equity of the joint venture or associate based on the balance sheet of the joint venture or associate. This amount is recorded as an increase (or decrease) in the carrying amount of the investment in the joint venture or associate, with a corresponding adjustment to the Group's equity items.

Unrealized gains and losses on transactions between the Group and its joint ventures and associates are eliminated to the extent of the Group's interest in the joint ventures and associates in accordance with current accounting regulations.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.6 Goodwill

Goodwill in the consolidated financial statements represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary or joint venture, associate at the date of acquisition.

Goodwill on acquisitions of subsidiaries is recognised as an asset and is amortised on a straight-line basis over its estimated period of benefit but not exceeding a period of 10 years. Goodwill on acquisitions of investments in joint ventures and associates is included in the carrying amount of the investments at the date of acquisition. The Group does not amortise this goodwill.

On disposal of the investments in subsidiaries or joint ventures and associates, the residual value of the goodwill that has not been fully depreciated is reduced in proportion to the percentage of capital withdrawn and included in the undistributed profit after tax when the parent company still holds control over the subsidiary or is reduced in its entirety and included in profit/loss on the consolidated income statement in case the parent company loses control.

Goodwill is tested annually for impairment. If there is evidence that the impairment during the period is higher than the annual goodwill charge, the Group records the impairment immediately in the year.

2.7 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks, cash in transit and other short-term investments with an original maturity of three months or less.

2.8 Receivables

Receivables represent trade receivables from customers arising from sales of goods and rendering of services or non-trade receivables from others and are stated at cost.

Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise. The difference between the provision of this period and the provision of the previous period is recognised as an increase or decrease of general and administrative expenses in the period. Bad debts are written off when identified as uncollectible.

Receivables are classified into short-term and long-term receivables on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the first-in first-out method and includes all costs of purchase, costs of conversion and other directly-related costs incurred in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct expenditure and production overheads based on normal levels of operating activity. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

The Group applies the perpetual system for inventories.

Provision is made, when necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of cost of goods sold in the year.

2.10 Investments

(a) Investments held to maturity

Investments held to maturity are investments which the Group has a positive intention and ability to hold until maturity.

Investments held to maturity include bank term deposits with an original term of more than three months and other investments held to maturity. Those investments are initially accounted for at cost. Subsequently, the Group reviews all outstanding investments to determine the amount of provision to recognise at the year end.

Provision for diminution in value of investments held to maturity is made when there is evidence that the investment is uncollectible in whole or in part. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Investments held to maturity are classified into short-term and long-term investments held to maturity on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

(b) Investments in joint ventures and associates

Investments in joint ventures and associates are accounted for using the equity method when preparing the consolidated financial statements (Note 2.5).

(c) Investments in other entities

Investments in other entities are investments in equity instruments of other entities without controlling rights or co-controlling rights, or without significant influence over the investee. These investments are carried at cost less provision for investments.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.10 Investments (continued)

(c) Investments in other entities (continued)

Provision for investments in other entities is made when there is a diminution in value of the investments at the year end. It is calculated based on market value if market value can be determined reliably. If market value cannot be determined reliably, the provision for investments in other entities is calculated based on the loss of investees.

Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

2.11 Lendings

Lendings are lendings granted for interest earning under agreements among parties but not being traded as securities.

Lendings are recognised at cost less any provision for doubtful lendings. Thereafter, the Group reviews all outstanding receivables to recognize a provision for doubtful debts at the end of the financial year. Provision for doubtful debts is established for each debt based on the number of days past due in comparison with the original debt repayment schedule (excluding any extensions agreed between the parties), or based on the estimated potential loss. The difference between the provision required at the end of the current financial year and the provision previously recognized at the end of the prior financial year is recorded as an increase or decrease in expenses for the year. The reversal of a provision shall not exceed the original carrying amount.

Lendings are classified into short-term and long-term lendings on the consolidated balance sheet based on the remaining term of the lendings as at the consolidated balance sheet date.

2.12 Contracts on software development and system integration

The Group applies the following accounting policies for accounting and monitoring of contracts on software development and system integration.

When the outcome of a contract on software development and system integration can be estimated reliably and the contract payment is made to the Group following the work progress, the percentage of completion method is used by the Group to determine the appropriate amount of revenue and costs to be recognised in the financial year.

When the outcome of a contract on software development and system integration cannot be reliably estimated, contract revenue is recognised to the extent of contract costs incurred where it is probable those costs will be recoverable. Contract costs are only recognised when incurred during the financial year.

The aggregate of the costs incurred, and the profit or loss recognised on each contract is compared against the progress billings up to the year end. Where costs incurred and profits recognised (less recognised losses) exceed progress billings, the balance is presented as contracts-in-progress receivables. Where progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is presented as contracts-in-progress payables.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.13 Fixed assets

Tangible fixed assets and depreciation

Fixed assets are stated at historical cost less accumulated depreciation. Historical cost includes any expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable condition for their intended use. The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs. Expenditure incurred subsequently which has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets can be capitalised as additional historical costs. Otherwise, such expenditure is charged to the consolidated income statement when incurred in the year.

Tangible fixed assets are depreciated using the straight-line method so as to write off the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the financial statements minus (-) the estimated disposal value of such assets. The estimated useful lives of each asset class are as follows:

Buildings and structures	5 – 30 years
Machinery and equipment	3 – 25 years
Motor vehicles	4 – 7 years
Office equipment	3 – 10 years
Others	3 – 5 years

Intangible fixed assets and amortisation

Intangible assets reflect the value of land use rights, licenses, operating rights, copyrights and patents, customer relationship, and brand name.

(i) Land use rights

Land use rights comprise land use rights granted by the State for which land use fees are collected, land use rights acquired in a legitimate transfer, and prepaid land use rights obtained under land rental contracts which are effective before the effective date of Land Law 2003 (which is 1 July 2004) and which land use right certificates are granted.

Definite land use rights are stated at costs less accumulated amortisation. Costs of land use rights consists of its purchased prices and any directly attributable costs in obtaining the land use rights. Land use rights are amortised using the straight-line basis over the terms of the land use right certificates. Indefinite land use rights are stated at costs and not amortised.

(ii) Computer software

Purchase price of a new computer software which is separable from the related hardware is capitalized and accounted for as an intangible asset. Computer software is amortised to the consolidated income statement on a straight-line basis over a period of 3 to 5 years.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.13 Fixed assets (continued)

Intangible fixed assets and amortisation (continued)

(iii) Licenses, operating rights, copyrights and patents

Purchase price of a license is accounted for as an intangible asset. The license is amortised to the consolidated income statement on a straight-line basis over the terms in the licences.

The right to operate the high-speed internet lines - Asia America Gateway ("AAG") and Asia Pacific Gateway ("APG") project and right of infinite use of AAE1 (Asia - Africa - Europe 1) are amortised over 15 years.

Purchase prices of copyrights and patents are capitalized and accounted for as intangible assets. Copyrights and patents are amortised to the consolidated income statement on a straight-line basis over a period of 3 to 5 years.

(iv) Customer relationship and brand name

Customer relationship and brand name which arise from the acquisition of subsidiaries are amortised on a straight-line basis over their estimated useful lives from 10 to 20 years.

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the consolidated income statement.

Construction in progress

Construction in progress represents the cost of assets in the course of installation or construction for production, rental or administrative purposes, or for purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to construct, repair and maintain, upgrade, renew or equip the projects with technologies. Depreciation of these assets, on the same basis as other fixed assets, commences when the assets are ready for their intended use.

2.14 Leased assets

Leases of property, plant and equipment where the lessor has transferred the ownership at the end of the lease period, and transferred substantially the risks and rewards, are classified as finance leases. Finance leases are capitalized at the inception of the lease at the lower of the fair value of leased assets or the present value of the minimum lease payments.

Each lease payment is separated between the liability and finance charges to achieve a constant rate on the outstanding finance lease balance.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.14 Leased assets (continued)

Financial cost is charged to the consolidated income statement over the lease term. The property, plant and equipment acquired under finance leasing contracts is depreciated under the straight-line method over the shorter of the estimated useful life of the assets or the lease term. However, if there is reasonable certainty that the lessee will obtain ownership by the end of the lease term, depreciation is calculated over the estimated useful life of the assets.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated income statement on a straight-line basis over the term of the lease.

2.15 Prepaid expenses

Prepaid expenses include short-term and long-term prepayments on the balance sheet. Short-term prepaid expenses represent prepayments for services; or tools that do not meet the recognition criteria for fixed assets for a period not exceeding 12 months or a business cycle from the date of prepayment. Long-term prepaid expenses represent prepayments for services; or tools, which do not meet the recognition criteria for fixed assets for a period exceeding 12 months or more than one business cycle from the date of prepayment. Prepaid expenses include land rental, office rental, other rentals (copyrights, channels, transmission line, cable), telecommunication service deployment costs for new subscribers and other prepaid expenses.

Prepaid land rental includes land rental which are not recorded as intangible assets as described in note 2.13. Prepaid land rental, office rental, and other rentals (copyrights, channels, transmission line, cable) are charged to the consolidated income statement using the straight-line method over the lease term.

Costs for telecommunication service deployment for new subscribers are charged to the consolidated income statement using the straight-line method over the estimated useful lives.

Other prepaid expenses comprise costs of small tools, supplies and spare parts issued for consumption, renovation of furniture and office, maintenance and other prepayments for services rendered contracts which are expected to provide future economic benefits to the Group. These expenditures have been capitalised as prepaid expenses and are allocated to the consolidated income statement using the straight-line method over the estimated useful lives.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.16 Payables

Classifications of payables are based on their nature as follows:

- Trade accounts payable are trade payables arising from purchase of goods and services; and
- Other payables are non-trade payables and payables not relating to purchases of goods and services.

Payables are classified into short-term and long-term payables on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

2.17 Borrowings and finance lease liabilities

Borrowings and finance lease liabilities include borrowings and finance leases from banks, financial institutions, financial companies and other entities. Borrowings and finance lease liabilities are classified into short-term and long-term borrowings and finance lease liabilities on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

Borrowing costs that are directly attributable to the construction or production of any qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use. In respect of general-purpose borrowings, a portion of which is used for the purpose of construction or production of any qualifying assets, the Group determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the weighted average expenditure on the assets. The capitalisation rate is the weighted average of the interest rates applicable to the Group's borrowings that are outstanding during the fiscal year, other than borrowings made specifically for the purpose of obtaining a qualifying asset. Other borrowing costs are recognised in the consolidated income statement when incurred.

2.18 Accrued expenses

Accrued expenses include liabilities for goods and services received in the year but not yet paid for due to pending invoices or insufficient records and documents. Accrued expenses are recorded as expenses in the year.

2.19 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provision is not recognised for future operating losses.

Provisions are measured at the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as financial expense. Changes in the provision balance during the fiscal year are recorded as an increase or decrease in operating expenses.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.20 Unearned revenue

Unearned revenue mainly comprises the amounts that customers have paid in advance for one or many accounting periods for telecommunication services, tuition fees, software services, repair and maintenance services, and other services. The Group records unearned revenue for the future obligations that the Group has to fulfil. Unearned revenue is recognised as revenue in the consolidated income statement to the extent that recognition criteria have been met.

2.21 Capital and reserves

Owners' capital is recorded according to the actual amounts contributed and is recorded according to the par value of the shares.

Share premium is the difference between the par value and the issued price of shares and the difference between the repurchase price and re-issued price of treasury shares.

Owners' other capital represents other capital of the owners at the reporting date, mainly regarding accounting for the dividends in shares which the Company received from the subsidiaries in the consolidated financial statements.

Treasury shares bought by the Company before the effective date of the Law on Securities (i.e. 1 January 2021) but not cancelled may be re-issued subsequently in accordance with the regulations on securities. Treasury shares bought after 1 January 2021 will be cancelled and adjusted to reduce the owners' capital.

Foreign exchange differences represent the differences in exchange rate occurred when converting the financial statements of the subsidiaries prepared and presented in foreign currency to VND for the consolidation purpose.

Undistributed earnings record the Group's accumulated results after CIT at the reporting date.

2.22 Appropriation of profit

The Company's dividends are recognised as a liability in the consolidated financial statements on the finalisation date for shareholders entitled to dividend receipt.

Profit after CIT could be distributed to shareholders after approval at the Shareholders' General Meeting, and after appropriation to other funds in accordance with the Company's charter and Vietnamese regulations.

The Group's funds are as below:

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.22 Appropriation of profit (continued)

(a) Investment and development fund

Investment and development fund is mainly appropriated from profit after CIT of the Group and is used for providing capital funding for development projects of the Group.

For education sector, investment and development fund is appropriated from profit before CIT in accordance with the Law on Higher Education No. 8/2012/QH13 promulgated by the National Assembly of Vietnam on 18 June 2012 and used for investing in the development of university education institutions, educational activities, building facilities, purchasing equipment, upskilling lecturers, educational administrators and employees, supporting learners and performing social responsibilities.

(b) Bonus and welfare fund

Bonus and welfare fund is appropriated in accordance with the Group's policies and subject to shareholders' approval at the Shareholders' General Meeting. This fund is presented as a liability on the consolidated balance sheet. The fund is used for staff appraisal and improving the employees' welfare.

(c) Other reserves

Other reserves are appropriated from net profit after CIT. The appropriation and use of other reserves belonging to the owners' equity follow the prevailing financial policies of the Group and are approved by the shareholders.

2.23 Revenue recognition

(a) Revenue from sales of goods

Revenue from sales of goods is recognised in the consolidated income statement when all five (5) following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

Revenue is recognised in accordance with the "substance over form" principle and allocated to each sale obligation.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.23 Revenue recognition (continued)

(b) Revenue from rendering of services

Revenue from rendering of services is recognised in the consolidated income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from rendering of services is only recognised when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group;
- The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from rendering of services includes:

Revenue from software export, software development, system integration and informatics services

Revenue is recognised in the consolidated income statement by reference to the percentage of completion of transactions at the year end. The percentage of completion is assessed by the survey of work performed, or the percentage of costs incurred/time spent on the portion of work completed at the end of the year compared to the total estimated costs/expected implementation time of the contracts. When the performance of the contracts cannot be reliably estimated, the revenue is recognized only as the equivalent of the incurred contract costs, with which the reimbursement is relatively certain.

Revenue from telecommunication services

Revenue from telecommunication services is recognised on a pro-rata basis over the period during which the services are actually provided to customers.

Revenue from online advertising services

Revenue from online advertising services is recognised on the basis of work completion.

Revenue from tuition fees and other fees

Revenue is recognised in the period when services are rendered. Almost tuition fees and other fees are collected in advance at the beginning of each semester. Tuition fees and other fees collected in advance from the students are recorded as unearned revenue on the consolidated balance sheet and recorded in the consolidated income statement in the fiscal year in which the semester falls.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.23 Revenue recognition (continued)

(c) Interest income

Interest income is recognised in the consolidated income statement on the basis of the actual time and interest rates for each period when both two (2) of the following conditions are satisfied:

- It is probable that economic benefits associated with the transaction will flow to the Group; and
- Income can be measured reliably.

(d) Dividends/distributable profits income

Income from dividends/distributable profits is recognised in the consolidated income statement when both two (2) of the following conditions are satisfied:

- It is probable that economic benefits associated with the transaction will flow to the Group; and
- Income can be measured reliably.

Income from dividends/distributable profits is recognised when the Group has established receiving rights from investees.

2.24 Sales deductions

Sales deductions include trade discounts, sales returns and allowances. Sales deductions incurred in the same year of the related revenue from sales of products, goods and rendering of services are recorded as deduction of revenue of that year.

Sales deductions for sales of products, goods or rendering of services which are sold in the year but are incurred after the consolidated balance sheet date but before the issuance of the consolidated financial statements are recorded as a deduction of revenue of that year.

2.25 Cost of goods sold and services rendered

Cost of goods sold and cost of services rendered are cost of finished goods, merchandise, raw materials sold or services rendered during the year, and recorded on the basis of matching with revenue and on a prudence basis.

2.26 Financial expenses

Financial expenses are expenses incurred in the year for financial activities mainly including interest expenses, provision for diminution in value of investments in other entities, and losses from foreign exchange differences.

2.27 Selling expenses

Selling expenses represent expenses that are incurred in the process of selling products, goods, and providing services.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.28 General and administration expenses

General and administration expenses represent expenses that are incurred for the Group's administrative purposes.

2.29 Current and deferred income tax

Income tax includes all income tax which are based on taxable profits. Income tax expense comprises current tax expense and deferred tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current year taxable profit at the current tax rates. Current and deferred tax should be recognised as an income or an expense and included in profit or loss of the period, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different period, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the financial year when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the consolidated balance sheet date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

2.30 The global minimum tax

On 29 November 2023, the National Assembly of Vietnam passed Resolution No. 107/2023/QH15 ("Resolution 107") on the application of Qualified Domestic Minimum Top-up Tax ("QDMTT") rule and Income Inclusion Rule ("IIR"). These rules align with the Pillar Two of the Global Anti-Base Erosion Model Rules ("BESP 2.0") of the OECD and will be effective from 1 January 2024 (hereinafter referred to as the "Global Minimum Tax Regulations"). The Resolution mandates that large multinational corporations are required to pay a minimum global corporate income tax rate of 15% on profits earned in the jurisdictions where they operate.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.31 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Group, including holding companies, subsidiaries, and fellow subsidiaries are related parties of the Group. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group, key management personnel, including the Board of Directors, the Board of Management, the Board of Supervision and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering its relationships with each related party, the Group considers the substance of the relationships, not merely the legal form.

2.32 Segment reporting

A segment is a component which can be separated by the Group engaged in providing products or services ("business segment") or providing products or services within a particular economic environment ("geographical segment"). Each segment is subject to risks and returns that are different from those of other segments. The primary segment reporting of the Group is presented in respect of the Group's business segments.

Information technology and telecommunication

Global IT products and services: including software production, providing consultancy and deployment services based on S.M.A.C/IoT technology, digital transformation services, IT system transformation services; quality assurance testing, embedded software design, ERP implementation and management services for customers outside Vietnam;

Domestic IT products and services: including application software solutions; information system integration services and solutions; IT equipment; data center; network and security system design; warranty and maintenance of IT products authorized by hardware vendors for customers in Vietnam;

Telecommunication: including internet services to individuals and households, internet services to enterprises such as internet lease line, domestic and international telecommunication, domain, hosting, web portal services, IPTV,...; and

Digital contents: including online services for enterprises and individual customers, including online newspapers (such as VnExpress.net, Ngoisao.net, iOne.net,...); online advertisement; advertising system (AdNetwork), online music, online payment,...

Investment, education and others

Including education services on IT, business management majors at high school, college, university and postgraduate levels; managing financial investments; managing and developing real estate projects relating to the Group's infrastructure needs.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.33 Critical accounting estimates

The preparation of the consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the accounting period.

The areas involving significant estimates and assumptions in consolidated financial statements are as follows:

- Provision for doubtful debts (Note 10);
- Provision for decline in value of inventories (Note 11);
- Provision for investments (Note 5);
- Estimated useful lives of fixed assets (Notes 2.13 and 2.14);
- Provisions (Note 2.19);
- Estimation of revenue's percentage of completion (Note 2.23); and
- Estimation of current and deferred income tax (Notes 2.29, 2.30 and 32).

Such estimates and assumptions are continually evaluated based on historical experiences and other factors, including expectations of future events that may have a material financial impact on the Group's consolidated financial statements and that are assessed by the Board of Management to be reasonable under the circumstances.

3 BUSINESS COMBINATION

During the year, the Group acquired 65.58% of the owners' equity of Nam Viet Software Solutions and Services Joint Stock Company (business activity: software publishing) and 65% of the equity of FPT OKI Changzhou Co., Ltd. and FPT OKI Dalian Co., Ltd. (business activity: software production). The Group also acquired all operations of David Lamm Consulting Company (business activity: information technology consulting) and merged this entity into FPT Germany Co., Ltd. In addition, the Group acquired and increased its ownership interest in FPT e-Wallet Co., Ltd. (business activity: intermediary electronic wallet payment) from 30% to 100%.

These business combinations resulted in the recognition of goodwill as disclosed in Note 16.

(b) Investments in entities (continued)

(*) The fair value of these investments is determined on the basis of the closing price on the stock exchange and the number of shares held by the Group at the end of the year.

(**) These companies do not have shares listed on a stock exchange. Because the Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System currently do not provide detailed guidance on how to determine fair values using valuation techniques for investments without market prices, the Group has not determined the fair value of these investments to disclose in the consolidated financial statements. The fair value of these investments might differ from their book value.

Movements of investments in joint ventures, associates during the year are as follows:

	2025 VND	2024 VND
At the beginning of the year	2,281,222,436,752	2,107,616,686,383

- *In which: Shares subject to restriction in ownership transfer*	*31,584,406*	*25,943,108*

Each ordinary share presents one vote at shareholders' meetings of the Company. The shareholders are entitled to receive dividends as declared from time to time. All ordinary shares are equal with regard to the Company's residual assets. In respect of shares bought back by the Company, all rights and benefits associated with the shares are suspended until those shares are re-issued.

23 OWNERS' CAPITAL (CONTINUED)

(a) Number of shares (continued)

Shares subject to restriction in ownership transfer, which are mainly shares issued for employees with outstanding performance and executive management, are subject to restrictions that the shareholders are not allowed to resell their shares within a specified timeline from the date of issuance.

At the end of year	7,265,096,802,767	5,933,309,621,004

(i) Share issued during the year:

Pursuant to the Resolution of the 2020 Annual General Meeting of Shareholders dated 8 April 2020, the Resolution of the 2023 Annual General Meeting of Shareholders dated 6 April 2023 and the Resolution No. 02.03-2025/NQ-HĐQTFPT dated 20 March 2025, the Company issued shares under the "Share issuance program for employees with outstanding performance in 2024" and "Share issuance program for executive management in 2025". Accordingly, the Company issued in total of 10,260,939 new shares at par value of VND 10,000 per share.

(ii) Capital increase from owners' equity for existing shareholders and cash dividends declared:

Pursuant to the Resolution of the 2025 Annual General Meeting of Shareholders dated 15 April 2025 and the Resolution No. 02.05-2025/NQ-HĐQTFPT dated 29 May 2025, the Company issued shares to increase capital from owners' equity for existing shareholders at a rate of 15% of par value, amounting to VND 2,221,769,990,000 and paid the remaining dividend for 2024 in cash at a rate of 10% of par value, amounting to VND 1,481,330,122,000.

Pursuant to the Resolution of the 2025 Annual General Meeting of Shareholders dated 14 April 2025 and the Resolution 01.11-2025/NQ-HĐQTFPT dated 13 November 2025, the Company paid first interim dividend of 2025 in cash at a rate of 10% of the par value, amounting to VND 1,703,507,121,000.

Pursuant to the Resolutions of the General Meeting of Shareholders/Board of Directors of subsidiaries, the subsidiaries increased their charter capital from owners' equity through issuing shares to existing shareholders.

(iii) Appropriation to funds

Pursuant to the Resolutions of the General Meeting of Shareholders/Board of Directors of subsidiaries, the subsidiaries appropriated the bonus and welfare funds, and appropriated/used the investment and development fund.

(iv) During the year, FPT Smart Cloud Japan Co., Ltd., a subsidiary within the Group, received additional capital contributions from other shareholders with a total value of VND 1,093,620,000,000.

25 EARNINGS PER SHARE

(a) Basic earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to shareholders after deducting the bonus and welfare fund and preferred share dividend divided by the weighted average number of ordinary shares outstanding during the year adjusted for bonus shares issued during the year and excluding treasury shares. Details are as follows:

	2025	2024 (As restated (*))
Net profit attributable to shareholders (VND)	9,376,127,629,501	7,856,767,812,178
Appropriation to bonus and welfare fund (VND)	(510,167,707,669)	(624,987,179,579)
	8,865,959,921,832	7,231,780,632,599
Weighted average number of outstanding ordinary shares in in circulation (shares)	1,699,740,091	1,684,830,543
Basic earnings per share (VND)	5,216	4,292

(*) During the year, the Company increased capital from owners' equity for existing shareholders for 2024, resulting in the adjustment to the basic earnings per share of the year ended 31 December 2024 as below:

	For the year ended 31 December 2024		
	As previously reported	Adjustment	As restated
Net profit attributable to shareholders (VND)	7,856,767,812,178	-	7,856,767,812,178
Appropriation to bonus and welfare fund (VND)	(624,987,179,579)	-	(624,987,179,579)
	7,231,780,632,599	-	7,231,780,632,599
Weighted average number of ordinary shares in circulation (VND)	1,462,653,544	222,176,999	1,684,830,543
Basic earnings per share (VND)	4,944	(652)	4,292

(b) Diluted earnings per share

Diluted earnings per share is equal to the basic earnings per share. The Company did not have any potential ordinary shares to be dilutive during the year and up to the date of the consolidated financial statements.

36 COMMITMENTS

(a) Commitments under operating leases

The Group signed operating leases contracts (including: offices, lands, teaching locations, houses, and others). Future payment commitments under the signed contracts are as follows:

	31/12/2025 VND	31/12/2024 VND
Within one year	1,003,048,814,934	872,479,124,331
Between one and five years	1,921,066,175,567	1,655,574,881,552
Over five years	770,608,131,792	771,175,004,322
	3,694,723,122,293	3,299,229,010,205

(b) Capital commitments

Capital expenditure (including: school construction projects, centers for research and development and purchase of other fixed assets) contracted for at the consolidated balance sheet date but not recognised in the consolidated financial statements was as follows:

	31/12/2025 VND	31/12/2024 VND
Capital commitments	1,788,310,602,983	408,935,033,406

37 OFF CONSOLIDATED BALANCE SHEET ITEMS

Doubtful debts written off

	31/12/2025 VND	31/12/2024 VND
Doubtful debts (*)	729,438,551,433	638,434,100,449

(*) The doubtful debts written off primarily consisted of trade account receivables from individual customers using internet services that were overdue for more than two years and were assessed as uncollectible.

38 CONTINGENT LIABILITY

Obligation for restoration costs for leased lands

The Group signed land rental contracts and carried out construction and infrastructure work on these leased lands. Majority of the land rental contracts do not explicitly state the Group's land restoration obligation after the rental periods. The Company's Board of Management assessed that the Group may have future obligations for dismantling and removing the assets on lands and restoring the lands to their original conditions at the end of the lease terms. These obligations can only be ascertained when there are further events in the future, for example, additional discussion with the lessors or when the governmental authority promulgates additional legal documents to clarify the lessees' obligations when the land lease contracts do not explicitly state provisions for land restoration obligations. Accordingly, the Group did not recognise the provision for land restoration costs for leased lands in the Group's consolidated financial statements for the year ended 31 December 2025.

39 EVENTS AFTER THE CONSOLIDATED BALANCE SHEET DATE

Establishment of new subsidiary:

Pursuant to the Resolution of Board of Directors No. 02.01-2026/NQ-HĐQTFPT dated 27 January 2026, the Board of Directors has approved the establishment of a subsidiary - FPT Digital Technology Infrastructure Company Limited to implement the project of Digital Technology and Complex Park, with an initial charter capital of VND 1,000 billion.

The Group's consolidated financial statements for the year ended 31 December 2025 were approved by the Deputy General Director of the Company on 18 March 2026.
